About Me

I'm Kiki Rizki, I come from Bekasi. I'm a passionate freelance Interior Designer dedicated to transforming spaces into unique and personalized environments. My expertise lies in creating customized interior designs that blend aesthetics with functionality seamlessly. I can work independently or with a team. I have a high enthusiasm to continue learning and also be able to convey ideas.

My Expertise That I Offer:

Conceptualization, Space Planning, Color Consultation, Furniture Selection, Budget-Friendly Solutions.

Why Choose Me?

- Every project is unique, and I tailor my designs to suit individual preferences and lifestyles.
- I believe that small details make a big difference. I meticulously plan every aspect to ensure a cohesive and harmonious design.

I look forward to the opportunity to work with you, please feel free to contact me by email, or phone number and browse through my portfolio attached to this link for a glimpse of my previous projects.

Best Regards, Kiki Rizki linktr.ee/kikiryz

Project 0.2 Residential - Home

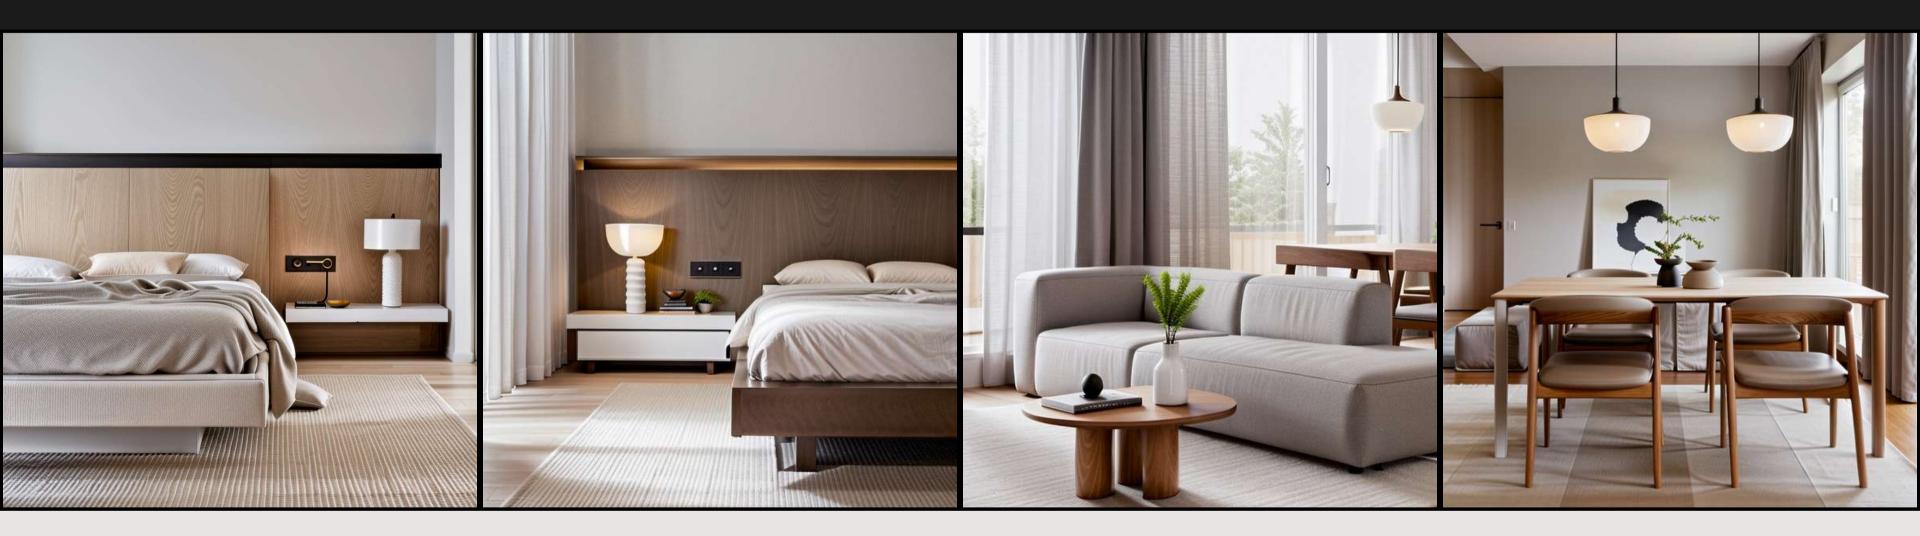

0.1 Apartment

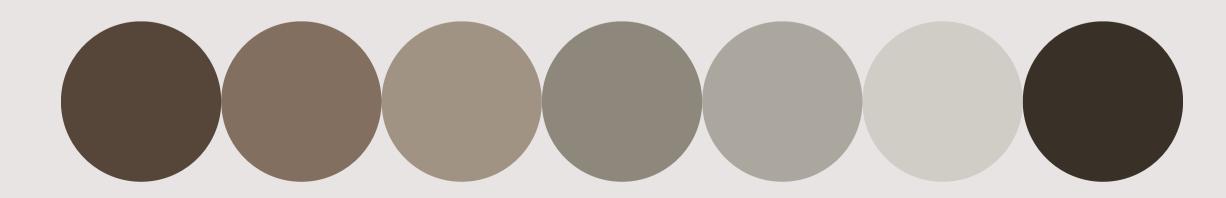

The art and technique of designing and building are inspired by the modern-minimalist lifestyle and make the most of narrow spaces to keep them functional.

Bedroom & Working Space | Kitchen Set

0.2 Residence - Home

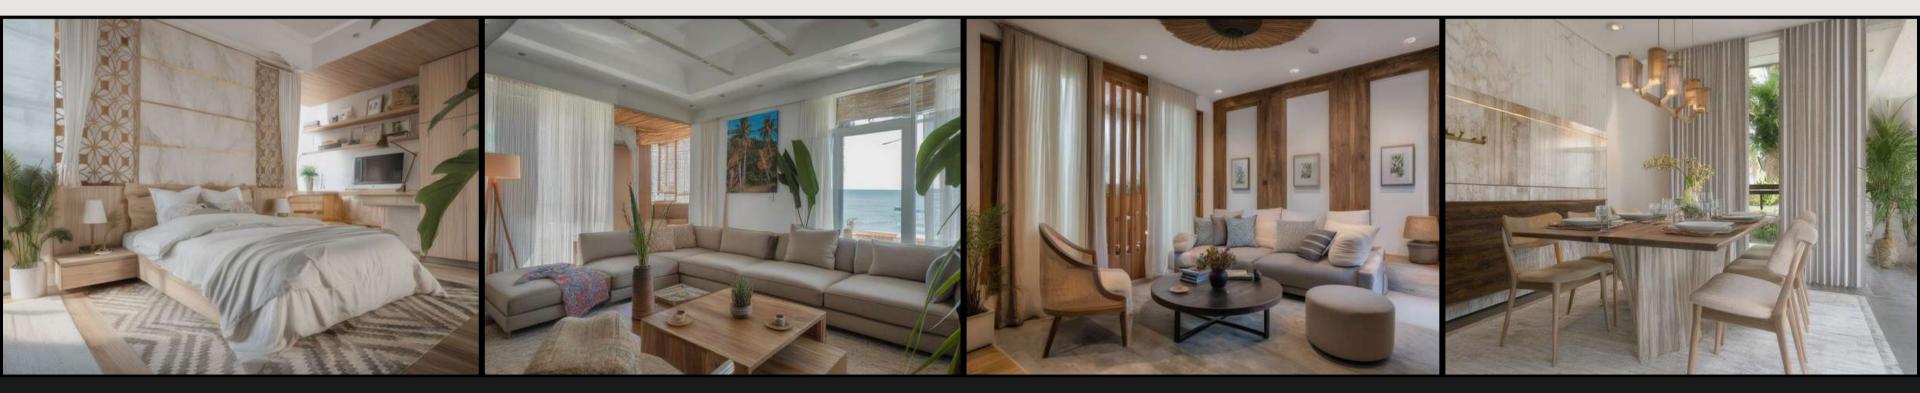

The owner of the house is a married couple and has 3 children (1 boy and 2 girls) for that, space facilities are needed : living room, family room, dining room, kitchen, master bedroom, 2-3 children's bedrooms, 3 bathrooms, and a service area for the house assistant.

With the concept of "Tropical Contemporary" the homeowner wants to have a beautiful and modern atmosphere but not look monotonous, for that he applies several elements or treatments in several places to show a "point of view" to make it look attractive, the addition of ornamental plants and natural stones gives a natural impression, fresh and beautiful.

A barbershop with a modern industrial theme combines contemporary design elements with raw, industrial aesthetics to create a unique and stylish environment. Utilize raw and unfinished materials such as exposed brick walls, concrete floors, and metal accents. These elements contribute to the industrial vibe, showcasing the building's structural elements.

• Mr. Daff Barbershop

Mr Daff Barber is a haircut (shaving) place located in East Bekasi, the owner wanted a classic concept for the barbershop interior. However, the owner has old retroindustrial style furniture and wants to use it. Finally, I designed and utilized the existing furniture by giving a classic industrial accent to the barbershop. adding several lighting spots, color combinations, and redesigning to adapt the existing concept.

Window Area

Yu' Nginep is an affordable accommodation. with a modern industrial concept showing a simple, messy, and easygoing impression, a strong impression of an unfinished room, or the impression of letting everything present and looking unfinished.

Page 14

Space Public 4 \mathbf{O}

YU' NGINEP - Modern Industrial

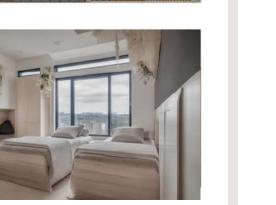

Exposed brick walls, metal materials, exposed piping or piping, exposed ceiling construction, etc. Besides that, the materials used are predominantly concrete, steel, wood, and lots of metal, giving the impression of a masculine and 'powerful' room.

- Incorporate reclaimed or salvaged wood for furniture, flooring, and accents. This brings warmth and a touch of rustic charm to balance the industrial elements.
- Selection of simple furniture with clean finishes and minimalist designs.
 Comfortable yet sleek chairs for clients and a sleek workstation for the barber contribute to the modern aesthetic.
- Install industrial-style lighting fixtures such as pendant lights with metal shades, Edison bulbs, or track lights. This not only adds to the overall theme but also provides sufficient and focused lighting for the barber's workplace.
