01. About Me

Hello 👋🏻 My name is Lucky Abdurrahman Saleh.

I graduated from BINUS University in 2023, I had majored in Computer Science and minored in Database Systems. I have some hands-on experience working as a Software Quality Assurance before and currently working as an IT Staff Programmer.

I am keen on getting a SQA position or as a Front-End position, though i do not limit myself to those position as by nature I like learning new things, and lastly, I believe willingness to learn is one of the key to success.
